

Top 5 Reasons to Bring Out Your Best for the AEC Excellence Awards 2017

1. **IT'S EASY:** We have simplified the competition to four categories: Infrastructure, Building, Construction, or Sustainability. Have several projects you're proud of? No problem. You can submit up to five different projects.
2. **YOU DESERVE RECOGNITION:** You will receive public recognition just by submitting! Winning projects will be included in a Showcase Book that will be shared globally and could also become a featured story and made available to thousands through promotions and social media. This downloadable Showcase Book is easily shareable to your own customers and clients.
3. **IT'S FREE PUBLICITY:** There will be promotion and coverage of the 2017 AEC Excellence Award winners across Autodesk, HP, Construction Dive, and Smart Cities Dive, social media and websites, as well as mentions in major AEC industry publications and media coverage of the Awards Ceremony at Autodesk University Las Vegas 2017.
4. **YOU COULD WIN PRIZES:** If your project is chosen, you could win a brand-new HP workstation, a trip to Autodesk University Las Vegas 2017, and recognition at the Autodesk University Awards Ceremony. And, of course, you'll receive a beautiful trophy you can show off to colleagues and clients once you return.
5. **YOU CAN MEET OTHERS LIKE YOU:** All 2017 winners will receive an invite to the Awards Ceremony at Autodesk University. This event will provide opportunities for stimulating discussions, networking, and collaboration with your AEC industry peers.
