

With nearly 25 years' experience, Robert Napoli is a visionary technology leader who delivers pioneering information services solutions that have measurable business impact.

His mission is to improve peoples' lives and the health of the businesses he works with by transforming companies, bringing them into the modern world with strategic vision, and by utilizing the very latest technology and information systems available.

Throughout the course of his career, he has led the selection and implementation of entire healthcare application portfolios with an emphasis on digital transformation, strategy, governance, Agile project management, and LEAN process improvement. He is experienced in acute care hospital, long-term acute care, and ambulatory environments.

Currently, Robert serves as Senior Vice President (SVP) and Chief Information Officer (CIO) at Planned Parenthood of the Great Northwest and the Hawaiian Islands and is responsible for all technology, information systems, process improvement and project management initiatives across their four-state service area.

Since assuming the position in 2013, he has led the refresh of the organization's entire technology infrastructure and end user computer environments and successfully deployed telehealth, population health, patient engagement, BYOD, and prescriptive solutions.

Recognized recently by Computerworld as a Premier 100 Technology Leader, Robert also led the deployment of the federation's first mobile health app which won IDG/CIO Magazine's "CIO 100" Award, recognizing organizations that have distinguished themselves through the innovative use of technology.

He holds a Master of Science in Information Technology Management from Franklin Pierce University, where he also is an Adjunct Professor in their MBA program and a Bachelor of Arts degree from Bard College. Robert's professional certifications include Certified Healthcare CIO (CHCIO), Certified Professional in Healthcare Information and Management Systems (CPHIMS), Certified ScrumMaster (CSM) and LEAN Six Sigma.

Robert is an active member of several professional associations including CHIME and HIMSS and serves on the CHIME CHCIO Exam Review Panel and the HIMSS Innovation Committee. Other association memberships include the American College of Healthcare Executives (ACHE), the Association for Executives in Healthcare Information Applications (AEHIT), the Association for Executives in Healthcare Information Technology (AEHIT) and the Scrum Alliance. He is also the Treasurer/Finance Committee Chair for Transitional Resources, a Seattle-based non-profit that assists adults with mental health issues, illnesses, and co-occurring disorders.
