

Shivdev Rao, MD, is an Executive Vice President at UPMC Enterprises, where he manages the provider facing portfolio of solutions that improve the quality and reduce the cost of health care. To that end, he sits on the board of multiple health IT companies and also leads R&D teams of designers, engineers, and analysts engaged in de novo product development.

Dr. Rao is also a faculty member in the Cardiology Department at UPMC's Heart and Vascular Institute. With his keen understanding of patients, clinical workflows, and technology, Dr. Rao brings a unique perspective to health technology investment and innovation. He received his BA from Carnegie Mellon University and his medical training at the University of Michigan and University of Pittsburgh.
