# Stanford Center on Longevity Design Challenge Entry Form
**(This is just a copy – please register and fill this out through the platform)**

**Project Title**
Maximum characters: 50

_____

**Single Sentence Summary (Describe your design in one sentence.)**
Maximum characters: 140

_____

**Describe the design fully. Include details about who it is designed to help, how it fits with the "Longevity-Ready Environments" theme, what alternatives exist for people today, and how your idea would be implemented. Please attach any drawings, photos, or other materials as needed to fully describe your solution.**
Maximum characters: 5000

_____

**Please upload any documentation that will help in the evaluation of your proposal.**
Maximum file size: 10 MB; PDF, Word, PowerPoint accepted

_____

**Please describe how you have validated this design (e.g. – Did you talk with potential users; review existing research or products on the market; test it with potential users?).**
Maximum characters: 1500

_____

**What is the expected per person cost of the solution? (How much would it cost a user to start using your design?)**
Maximum characters: 25

_____

**How did you arrive at this number?**
Maximum characters: 1500

_____

**Upload a photo of your team or design (will appear next to your Project Title for the judges)**
Maximum file size: 10 MB; jpg, png accepted

_____

**For each member of your team, please provide the following: (1) name, (2) role – how they contributed to the design, and (3) university (for any non-student team members write "not a student")**

**Member #1** Maximum characters: 400

**Member #2** Maximum characters: 400

**Member #3** Maximum characters: 400

**Member #4** Maximum characters: 400

**Member #5** Maximum characters: 400

**Optional Video:** A short video is often a good additional resource to describe your solution. You may insert the URL of a YouTube video or upload a video (up to 90 seconds long) in the fields below.

**Please insert the URL of a YouTube video here.**

http://

**Upload your video file here.**

Maximum file size: 200 MB

Video Instructions:

- Keep file names under 30 characters
- Do not include special characters in file names.
- Once uploaded, your video will take some time to be rendered, depending on size. This can be anywhere from 30 seconds to a few minutes or longer.
- You will see a placeholder video in this spot while the video is processed.
- To check to see if your video is ready to be viewed, please refresh your page (you can do this by clicking the "Dashboard" icon).
- If you are uploading a very large file or using a slow internet connection, be aware that the system will time out after 60 minutes.
- Your video will need to be published before you can submit your application. **We strongly advise you do not try to upload your video right before the submission deadline.**

The following will not affect how your entry is judged.

**Have you received any funding for your project?**
**If so, please list the sources.**

Maximum characters: 500

**Has this design been submitted to any other competitions?**
**If so, which one(s)?**
